

HOMESTAY CONSENT FORM

Distribution of Contact Information to Other Host Families

The International Student Program would like to put together a contact list for all homestay families. This list would provide your name, address, contact numbers, and your student(s) name(s). Only those who give us consent will receive the information. The purpose of list is to assist host families in facilitating transportation arrangements (i.e. car-pooling) when students ask to sleepover at another student's homestay and cannot provide you with contact information. This information also allows students to contact each other during their stay.

If you are interested in receiving this list please complete the authorization form below.

If you have any changes to your contact information, please contact your homestay coordinator or the International Student Program as soon as possible. We will update the list as regularly as possible and send out new lists via email.
